Respected Sir,

Sub: My experiences with I Internal Examination

I thought online Examination will be difficult but later I came to know that my prediction was false. The I Internal examination was easy but I took lot of time to answer the questions. To select the Right Answers, it was tricky because all the four Choices are looking same and very difficult to find mistake among Them. We discussed about the Right answers with the friends in the conference call. It was amazing experience while looking at the scores of the I Internal exam.

I hope I shared my all true experiences about I internal examination with you.

Thanking you.

Yours faithfully

Nishanth
